(54) MUSIC DISTRIBUTION SYSTEM, MUSIC DISTRIBUTION METHOD, AND TERMINAL DEVICE USED FOR MUSIC DISTRIBUTION

(57)Abstract:

PROBLEM TO BE SOLVED: To distribute music data having high quality to the user of the customer being an object of preferred treatment as a service, and to prevent other users from listening to the music data.

SOLUTION: A music server 1 distributes the music data concerned with the distribution request and creation of the music data, or the discrimination information of the artist relating to the performance, when the distribution request of music data is received via the Internet 4. A reproducing apparatus 8 performs reproduction processing of the distributed music data, when the agreement of the discrimination information read out from the specific CD recording music data and the discrimination information of the artist relating to creation or the performance of the music data and the distributed discrimination information is confirmed, in the case of reproducing the music data distributed from the music server 1 via the Internet 4.
